

**96-0053**

The invention relates to the alcoholic beverage industry, in particular, to one of the strong drinks compositions.

The drink comprises (to 1000 dkl of blending) lemon wormwood alcoholic solution - 35-45 l or lemon wormwood essential oil - 0,8-1,2 kg, sugar syrup - 45-50 kg, higher cleaning rectified ethyl alcohol - 3900-3950 l and softened water - the rest of.

The technical result consists in lending to the drink a citric freshness in the fragrance and in the taste, expanding the strong drinks assortment.
