

**99-0103**

The invention refers to agriculture, in particular, to the phytotechnique, and may be used for increasing the soybean plants productivity.

Summary of the invention consists in the seed treatment before sowing with the 0,000 ...0,00 % potassium gallat water solution of chemical formula

$KC_7H_5O_5 \cdot 0,25C_7H_6O_5 \cdot 1,5H_2O$ .

The technical result of the invention consists in formation of a high-capacity assimilation apparatus, CO<sub>2</sub> assimilation high effectiveness and increasing the pigments fund.
