

a 2003 0255

The invention refers to the food industry, in particular to the production of seasonings by using the mustard powder. The claimed seasoning contains mustard powder, acetic acid, salt, butter, natural honey, cocoa or coffee beans processing product, 40% lactic acid and water, in the following ratio of ingredients, in mass %:

mustard powder	8,0...10,0
80% acetic acid	1,0...2,0
salt	1,0...3,0
butter	10,0...15,0
natural honey	9,0...17,0
cocoa or coffee beans processing product	15,0...30,0
40% lactic acid	1,25...7,50
water	the rest.

The result of the invention consists in the formation of an originally contrasting taste, in particular sweet, pungent and slightly sourish.
