

a 2008 0028

The invention refers to agriculture, namely to a herbicidal composition and a method for controlling undesired plants or inhibiting their growth.

The herbicidal composition contains (A) 2-(4,6-dimethoxypyrimidin-2-ylcarbamoylsul-famoyl)-N,N-dimethylnicotinamide or its salt and (B) N²-tert-butyl-6-chloro-N⁴-ethyl-1,3,5-triazine-2,4-diamine or its salt, in which the ratio of components (A) and (B) is 1:(0.5...1000) of mass parts.

The method for controlling undesired plants or inhibiting their growth includes application of a herbicidally effective amount thereof or application of a herbicidally effective amount of component (A) from 1 to 200 g/ha and a herbicidally effective amount of component (B) from 100 to 5000 g/ha to the undesired plants or to a place where they grow.
